PROJECT PROGRESS AT A GLANCE

The fifth transactional meeting that was held in Helsinki, Finland on August 28th and 29th, 2023, reflecting a successful culmination of targeted discussions and future-oriented planning.

At this phase of the project, the knowledge paper and the modular curriculum were published. Partners will translate the teacher guide and modular curriculum. The OER course will also be translated by BETI. In addition, the project partners reflected on the series workshops and the conducted surveys on digital pedagogy. Furthermore, the partners collaborated to plan for the e-teach certificate program, set up important deadlines for updating the teacher guide and the OER course, and organize the schedules of the multiplier events.

E-TEACH KNOWLEDGE PAPER

The Knowledge Paper offers a theoretical foundation for understanding digital pedagogy. It also features practical case studies for real-world applications.

The Knowledge Paper is published in English at the following link:

<https://www.e-teach-eu.net/results>

The Knowledge Paper is freely accessible for all interested users.

E-TEACH MODULAR CURRICULUM

The E-Teach Modular Curriculum provides example lesson plans to teach digital pedagogy to pre-service teachers on various topics.

The Modular Curriculum is published in English at the following link:

<https://www.e-teach-eu.net/results>

Besides the English version, all partners will also complete the translation of the modular curriculum in all national languages of the project partner countries.

E-TEACH PILOT WORKSHOPS

Partners reflected on the series of workshops on digital pedagogy and analyzed the data collected from the national surveys. All Project partners summarized the feedback and the experiences for future implementations.

TEACHER'S GUIDE

The Teacher's Guide is an online resource that will be designed to provide teachers and future teachers with practical tools and strategies for integrating digital pedagogy into their classrooms.

Drawing from the recommendations discussed, there's a collective commitment to refining and finalizing the modules of the Teacher's Guide in September 2023. Furthermore, to cater to a diverse audience, the translated version of the teacher guide will be available in October 2023.

(OER) ONLINE COURSE

The OER Online Course is a specialized platform designed to cater to the needs of current teachers and aspiring teachers who aim to refine their skills in digital pedagogy. Accessible through the Canvas platform, this course will offer a wealth of high-quality Open Educational Resources (OER) in an interactive and user-friendly environment.

The e-Teach OER online course will be published and available to the public in October 2023.

E-TEACH CERTIFICATE TRAINING PROGRAM

The e-teach certificate training program features a blend of live, online synchronous training sessions with an asynchronous online course (OER). Our partners will host four distinct 2-hour sessions focusing on various facets of digital pedagogy.

E-TEACH CERTIFICATE TRAINING PROGRAM

The program aims:

- To create a supportive and enriching environment for educators and future teachers.
- To offer a robust curriculum covering the many facets of digital pedagogy.
- To provide the necessary skill set for effectively leveraging digital tools and methods in teaching.
- To offer a certificate, serving as a credential for digital pedagogical competence.

The e-teach certificate training program consists of 4 sessions according to the following schedule:

- Session 1: October 17, 2023
- Session 2: October 24, 2023
- Session 3: October 31, 2023
- Session 4: November 7, 2023

5-7 PM Central European Time (CET) 6-8 PM Eastern European Time (EET)

The e-teach certificate training program covers the following topics:

1. Concepts and Approaches to Digital Pedagogy.

Hosted by: Çanakkale Onsekiz Mart University (COMU) & Vrije Universiteit Brussel (VUB)

2. Teacher's Competencies and Digital Content Development.

Hosted by: University of Helsinki (UH) & Lucian Blaga University of Sibiu (LBUS)

3. Blended Learning and Emerging New Technologies

Hosted by: University of Social Sciences (SAN) & Baltic Institute of Educational Technologies (BETI)

4. Digital Planning and Digital Assessment & Evaluation.

Hosted by: Vrije Universiteit Brussel (VUB)

WHAT IS NEXT?

- Next transnational meeting will be held by SAN in Lodz/Warsaw on October 9th-10th 2023.
- A conference will be held by BETI in Kaunas in December 2023.
- The final project meeting will be held by Vrije Universiteit Brussels in January 2024.
