ABOUT THE PROJECT

EmpowerHER is designed to close the gender gap in business. It helps young women aged 16–21, particularly those from vulnerable groups, build the skills and confidence needed to start entrepreneurial careers. The project features summer bootcamps and an educational Virtual Reality (VR) escape room game. Through training, digital tools, and mentorship, EmpowerHER creates a supportive network to boost women's participation in entrepreneurship.

EMPOWERHER

Objectives

- Tackle gender imbalance in entrepreneurship by equipping young women aged 16–21 with key entrepreneurial and transversal skills.
- Empower girls from vulnerable or marginalized backgrounds to build confidence and pursue entrepreneurial careers.
- Foster initiative and active citizenship by effectively utilizing non-academic and out-of-school time.
- Connect young aspiring entrepreneurs with mentors, investors, and peer networks through storytelling, podcasts, and pitching competitions.
- Train youth workers, trainers, and volunteers to serve as long-term entrepreneurial mentors.
- Build strong local and international synergies with schools, educators, NGOs, and market actors to support young female changemakers.

EmpowerHER engages a broad network of stakeholders to ensure lasting impact beyond the project's lifespan. By connecting youth workers, educators, NGOs, and local authorities with business mentors, social enterprises, and career counsellors, we create strong local and European synergies that continuously support young female entrepreneurs.
